

STATE OF RHODE ISLAND

Department of Corrections

JAKE GADSDEN

*Assistant Director
Institutions & Operations*

January 10, 2006

Dean A. Devlin
Senior Vice President
Public Sector Sales
SafeView, Inc.
2020 Pennsylvania Avenue, NW#183
Washington, DC 20006

Dear Mr. Devlin:

It is my understanding that the FCC is considering a waiver for SafeView SafeScout systems for screening of people at security checkpoints for threat objects. I am aware that these systems are already deployed overseas in government buildings, airports, border crossings, transportation terminals, and military checkpoints. I am also aware that the Department of Homeland Security has recently certified the SafeView SafeScout systems as an approved anti-terror technology under the Safety Act, one of only 34 products so approved.

It is logical to me that in the United States, I would expect that these types of devices will someday be used in courthouses, airports, prisons, and government buildings where the end customer will be local and state governments along with commercial entities that will require FCC approval.

Page Two

While I can not comment on the technical merit of the waiver, I can tell you that I support the deployment of these kinds of technologies to make America a safer place.

Sincerely,

A handwritten signature in black ink, reading "Jake Gadsden" with a horizontal line extending from the end of the name.

Jake Gadsden, Assistant Director
Institutions and Operations
